Value Creation Stories in a Community of Practice: Assessing Value in an Online Masters Program .............................................................. 1340
Michael Menchaca, University of Hawaii at Manoa, United States; John Cowan, Northern Illinois University, United States

An Online Course Enhancement Process that Works ................................................. 1350
Linda Merillat, Washburn University, United States; David Hofmeister, Friends University, United States; Monica Scheibmeir & Jeanne Catanzaro, Washburn University, United States

21st Century Preparedness for Student Success: Creation and Validation of a New Assessment ............................................................................ 1356
Melissa Miszkiewicz, SUNY College at Buffalo, United States; Christine Kroll, SUNY Buffalo, United States

Sound flipping: How audio-only flipped learning experiences can improve out-of-class learning. ............................................................................................... 1364
Mathew Mitchell, University of San Francisco, United States

e-Rating for Monitoring Students’ Academic Performance in Undergraduate Medical Education ............................................................................................................. 1368
Ksenia Mitrofanova, Ural State Medical Academy, Russian Federation; Petr Ivachev, Konstantin Kuzmin & Sergey Kulikov, Ural State Medical University, Russian Federation

Development of a Corpus-Based Web Application to Support Writing Technical Documents in English ........................................................................................................ 1371
Yoshinori Miyazaki, Shizuoka University, Japan; Shosaku Tanaka, Ritsumeikan University, Japan; Yukie Koyama, Nagoya Institute of Technology, Japan

Building Very Large Corpus Containing Useful Rich Materials for Language Learning from Closed Caption TV ........................................................................ 1381
Hajime Mochizuki & Kohji Shibano, Tokyo University of Foreign Studies, Japan

The Effectiveness of Slight Modification to Supplement Programs in the Development of AR Applications ................................................................. 1390
Hajime Mochizuki, Tokyo University of Foreign Studies, Japan

iPads with a Purpose: Selecting Apps to Meet the Differing Instructional Needs of Young Children ........................................................................................................... 1397
Heather Monroe-Ossi, Bronwyn McLemore, Tiffany Ohlson & Kelly Maki, Florida Institute of Education at UNF, United States
Special Connections: A Social Media Website for Teaching Social Skills to Individuals with Cognitive Disabilities ................................................................. 1401
Dekita Moon, University of Florida, United States; Amber Solomon, Clemson University, United States; Sanethia Thomas & Juan Gilbert, University of Florida, United States

AncientGeek: Primary Sources Powering Historical Language Learning ............... 1407
Maria Moritz, Monica Lent, Thomas köntges, Emily Franzini, Maryam Foradi & Gregory Crane, University of Leipzig, Germany

Digging Deeper: Undergraduate Action Research .................................................. 1417
Kim Nettleton & Lesia Lennex, Morehead State University, United States

An Instructional Design Process for the Creation of Chemistry Lab Procedural Videos ........................................................................................................... 1428
Brian Newberry, California State University, San Bernardino, United States; Courtney Meyet, Hillsdale College, United States

Promoting Motivational Strategies in Online Learning ........................................ 1434
Sarah North, University of Minnesota, United States

Using a Design Pattern Framework to Structure Online Course Content: Two Design Cases ........................................................................................................ 1440
Priscilla Norton & Dawn Hathaway, George Mason University, United States

Assessment of Instructional Technology Tools: How do Teachers Assess the Effectiveness of Instructional Technology Tools Integrated in K-12 Learning Environments? .......................................................... 1450
Esther Ntuli, Idaho State University, United States

Technology-delivered Instructional Coaching ...................................................... 1454
Gwen Nugent, James Houston, Melissa Hall & Gina Kunz, University of Nebraska-Lincoln, United States

Trends in Students with Learning Disabilities Attending American Colleges and Universities: Implications for E-Learning ........................................ 1462
Chris O'Brien & Debra Holzberg, University of North Carolina at Charlotte, United States; Nancy Aguinaga, Southeast Missouri State University, United States

Acceptance and Use of Web-based Learning Environments/E-learning Environments in Higher Education: West African learners experience. ............................. 1467
Adewunmi Ogunbase, University of Tampere, Finland
Analytics of Real-world Learning by Re-constructing Time-series Occurrence of Qualitatively Different Learning and 3D Human Attention .......................................................... 1476
Masaya Okada, Graduate School of Informatics, Shizuoka University, Japan; Masahiro Tada, Faculty of Science and Engineering, Kindai University, Japan

Proposing 8 Concrete Ways to Support the Social Dimension in Online Learning Environments ........................................................................................................................................... 1486
Hanna M. Olsson, Mid Sweden University, Sweden

Design of A Mixed-method Case Study to Analyze Students' Online Social Learning in Ning-based Online Learning Community ................................. 1495
Fan Ouyang, University of Minnesota, United States

Use of a Digital Notebook Application in Elementary Science ......................... 1505
Seungoh Paek & Lori A. Fulton, University of Hawaii at Manoa, United States

Demonstrating Competencies with E-Portfolios: The Carolina MPA .................. 1511
Stefanie Panke & John Stephens, University of North Carolina at Chapel Hill, United States

E-Portfolios in Higher Education Settings: A Literature Review .......................... 1530
Stefanie Panke, University of North Carolina at Chapel Hill, United States

Re-Envisioning the University Website: Participatory Design Case Study ............. 1540
Stefanie Panke, Georgia Allen & Dan McAvinche, University of North Carolina at Chapel Hill, United States

Examining Social Presence and Collective Efficacy on an International CMC Program with Online Collaborative Learning .......................................................... 1550
Seyoung Park & Kisang Song, Korea National University of Education, United States

Lessons from Project-Based Learning for Advanced Instructional Design Skills .......................................................... 1556
Yun Jeong Park, St. Cloud State University, United States

Responsibility and Knowledge Building in a Virtual Learning Environment: Is There Any Cultural Influence? ................................................................. 1559
Erika Parra Silva, Universidad de las Islas Baleares, Spain

Digital Scholarship and Impact Factors: Methods and Tools to Connect Your Research .................................................................................................................. 1564
Laura Pasquini, Jenny Wakefield, Adalheidur Reed & Jeff Allen, University of North Texas, United States
Moving a Traditional Classroom into the 21st Century using Online Instruction .......................................................... 1570
Kelly Paynter & Jimmy Barnes, Jacksonville State University, United States

Building Community in Adult Education Cohorts Using Social Media .................. 1575
Jennifer Pena, James Bartlett & Christopher Flowers, North Carolina State University, United States

Lessons Learned from Designing and Developing MOOCs by Doctoral Students .......................................................... 1580
Trang Phan, Abel Kalum, Arthur Anthony Noel Beltran, Sara McNeil & Bernard Robin, University of Houston, United States

Preservice English Teachers Learn to Flip Classroom Instruction ......................... 1586
Amy Piotrowski & Shelbie Witte, Florida State University, United States

Reconciliation of Pedagogical Objectives, Technical Opportunities and Stereotypes of Educational Application: Case Perioperative Nursing ........................................ 1593
Antti Pirhonen & Tiina Koskelainen, Department of Computer Science and Information Systems, University of Jyväskylä, Finland; Minna Silvennoinen, Agora Center, University of Jyväskylä, Finland

Systemic View of Online Learning Communities: The connection between Communication, Cooperation and Collaboration ......................................................... 1603
Kashieka Popkin & Heather Lamb, University of North Texas, United States

Applying a Quality Enhancement Framework to the Development of Distance Learning Programs at Nazarbayev University (Republic of Kazakhstan) .................. 1609
