Welcome to Global Learn 2015!

The FernUniversität in Hagen, as the largest university in Germany Global with more than 85,000 students, is honored to organize this conference on learning and technology at our regional center in Berlin. Although our main campus is in Hagen, North Rhine-Westphalia we are a spread-out university with 30 study centers in Germany, Austria, and Central and Eastern Europe. The regional center in Berlin is one of our most important and most beautiful centers. Here our students benefit from our modern distance education system which combines pedagogically well prepared study units with individual support, net-based co-operation in seminars and working groups, online communication offers and face-to-face sessions (Blended Learning). All topics that we will see back at Global Learn 2015. That is why we are so exited to welcome many participants from more then 30 countries.

The mission of the Global Learn conferences and events is to further the advancement and innovation in learning and technology. These goals are also in the DNA of our university.

As the educational world becomes increasingly global, new ways to explore, learn, and share knowledge are needed. Global Learn serves as a means to connect and engage creative educators, researchers, consultants, training managers, curriculum developers, and others in the topics and fields in which they are passionate about. Many individuals are transforming learning environments in local as well as more global ways. Global Learn offers them an opportunity to meet and discuss their ideas, findings, and next steps.

Since Global Learn conferences are worldwide conferences that are regionally organized by local renowned universities at their campus, we are very proud that the board of AACE gave us this opportunity. We want to say thank you and I’m sure that all participants will have a wonderful time in our great Capital.

Theo J. Bastiaens
Professor of Educational Technology, FernUniversität in Hagen
and Global Learn 2015 Program Chair
AACE would like to thank

Invitation to Join

The Association for the Advancement of Computing in Education (AACE) is an international, non-profit educational organization. The Association’s purpose is to advance the knowledge, theory, and quality of teaching and learning at all levels with information technology.

This purpose is accomplished through the encouragement of scholarly inquiry related to technology in education and the dissemination of research results and their applications through AACE sponsored publications, conferences, and other opportunities for professional growth.

AACE members have the opportunity to participate in Special Interest Groups (SIGs), high-quality peer-reviewed publications, and conferences.

Join with fellow professionals from around the world to share knowledge and ideas on research, development, and applications in information technology and education. AACE’s membership includes researchers, developers, and practitioners in schools, colleges, and universities; administrators, policy decision-makers, professional trainers, adult educators, and other specialists in education, industry, and government with an interest in advancing knowledge and learning with information technology in education.

Membership Benefit Highlights

- Gain professional recognition by participating in AACE sponsored international conferences
- Enhance your knowledge and professional skills through interaction with colleagues from around the world
- Learn from colleagues’ research and studies by receiving AACE’s well-respected journals and books
