# TABLE OF CONTENTS

**How Video Games and Digital Literacy Impacts Student Achievement and Development: An Analysis of Synergistic Integration** ................................................................. 1  
Mario Adkins, Grand Valley State University, United States

**Using UDL Exchange to Teach the Universal Design for Learning Framework to Pre-service Teachers** ........................................................................................................ 6  
Liz Berquist & Jessica Moore, Towson University, United States

**Educators' Self-Identified Mobile Learning Training Needs: A Qualitative Study Involving Educators from 12 Diverse North American States** ........................................... 8  
Helen Crompton, Old Dominion University, United States

**Asynchronous Discussion Strategies in Online Courses: Which Type is Most Effective in Engaging Students in Meaningful Dialogue?** .................................................. 12  
Linda Easley-Tidwell, Louisiana State University in Shreveport, United States

**Using Mobile Apps to Transform Teaching and Learning in Literacy** .......................... 21  
Janette Hughes, University of Ontario Institute of Technology, Canada

**Teaching and Learning with Clickers in Higher Education** ........................................ 29  
James Oigara, Canisius College, United States

**Creating online programs to support lateral entry teachers: The power of collaboration.** ................................................................. 37  
Nancy Ruppert, UNC Asheville, United States

**Virtual Reality Worlds for Teacher Education** ............................................................... 43  
Marlo Steed, Faculty of Education, University of Lethbridge, Canada

**Teachers’ TPACK Competency Developed and Observed in EFL Classrooms: The Impact of TPACK-in-Action Workshops** ................................................................. 49  
Shu-Ju Diana Tai, Center for Technology in Learning & Teaching, Iowa State University, United States

**SOCIAL MEDIA AND EPISTEMIC DISCOURSE: DESIGNING INSTRUCTIONAL ACTIVITIES** .......................................................................................................................... 51  
Terence Ahern, West Virginia University, United States

**Creativity and Innovation in STEM Classrooms through Professional Development** .......................................................................................................................... 57  
Manorama Talaiver, ITTIP/Longwood University, United States
Google Docs, Forms and Video Mashup Using HTML5 for Assessment Applications ................................................................. 64
Robert Workman, Southern Connecticut State University, United States

Infusing ICT into K-12 Teacher Education: From China's Perspective ....................... 65
Harrison Yang, NERCEL, China

Explorative Study on the Ways of using Blogs and Wikis as Teaching and Learning Tools in Mathematics ................................................................. 66
Rana Zein, HCT, United Arab Emirates

IMPACT OF FOREIGN AID ON THE MANAGEMENT OF HIGHER EDUCATION IN THE ECONOMIC COMMUNITY OF WEST AFRICAN STATES. ............................................. 69
OLUJIDE AKILAIYA, FEDERAL COLLEGE OF EDUCATION (TECHNICAL) ASABA, Nigeria

Social Presence in Learner-driven Social Media Environments .................................. 73
Swapna Kumar, University of Florida, Gainesville, United States; Mark Hart, University of Florida, United States

Computational Thinking for the Rest of Us: A Liberal Arts Approach to Engaging Middle and High School Teachers with Computer Science Students .................. 79
Samuel Cho & Paul Pauca, Wake Forest University, United States; Denise Johnson, Winston-Salem State University, United States; Yu'Vonne James, Hanes Magnet School, United States

Learning Experience Through RoboCupJunior: Promoting STEM Education and 21st Century Skills with Robotics Competition ................................................. 87
Amy Eguchi, Bloomfield College, United States

Amy Eguchi, Bloomfield College, United States

The Development of App Making Learning Curriculum for Informatics Gifted Elementary School Students to Improve their Computational Thinking ..................... 96
SungJin Hwang, JeongWon Choi & YoungJun Lee, Dept. of Computer Education, Korea National University of Education, Korea (South)

A study of STEAM Education based on Art with Scratch2.0 ........................................ 102
Seongkyun Jeon & YoungJun Lee, Korea National University of Education, Korea (South)

The Potentials and Challenges of Learning with Electronic Textiles for Computing Education ........................................................................................................ 106
Eunkyoung Lee & Sungsook Kim, Korea Institute for Curriculum and Evaluation, Korea (South)
Promoting Computer Science among Girls: An Auburn University Pilot Program .......................................................... 112
Daniela Marghitu, Jung Won Hur, Yasmeen Rawajjih, Jillian Hall & Cassandra Stephens, Auburn University, United States

Integrating Computational Thinking in the Mathematics Curriculum .................... 120
Gerard Rambally, University of North Texas at Dallas, United States

Computational Pedagogy Approach to STEM Teaching and Learning ..................... 131
Osman Yasar & Jose Maliekal, SUNY College at Brockport, United States

Multi-frame Analysis to Online Learning Spaces .................................................. 140
Esther Hattingh & Chia-Jung Chung, California State University, Sacramento, United States; Ying Wang, Chongqing University of Science and Technology, United States

A Look at Civic Education in Online Learning: Research in Progress ..................... 146
Becky Odom-Bartel & Vivian Wright, The University of Alabama, United States

Instructors’ Firsthand Experience toward the Turnitin Embedded onto the Oncourse ............................................................................................................................. 151
Ju Park, Indiana University Northwest, United States

Engaging Engineering Faculty in Professional Communities Supporting Instructional Technology Initiatives .............................................................................................................................. 154
Luisa-Maria Rosu, University of Illinois at Urbana-Champaign, United States

Revising a Technology Course: Studying Teaching Using Design-Based Research .............................................................................................................................. 161
Krista Ruggles & Alyson Adams, University of Florida, United States

The Development of Future Faculty Peer Networks in Educational Technology Training .............................................................................................................................. 167

The Evaluation of Applying our Developed Haiku Application to Liberal Arts Students ............................................................................................................................. 173
Nobuhiko Takada, Kanazawagakuin University, Japan; Issei Yoshida, Kanazawa Gakuin University, Japan; Masami Suzuki, KDDI R&D Laboratories, Inc., Japan; Ryoichi Yanagisawa, Kanazawa Gakuin University, Japan
Enhancing Faculty’s Understandings of the Best Practices of International Student Teaching and Learning in Higher Education Setting .......................................................... 180
Xi Yu, University of Minnesota, United States

STEM Transmedia Book ................................................................................................... 181
Pamela Ponners, Sumreen Asim & Tandra Tyler-Wood, University of North Texas, United States

Innovative Digital Design Technologies that Support Student Creativity ..................... 182
Daniel Tillman, University of Texas at El Paso, United States; Shaunna Smith, Texas State University - San Marcos, United States; Punya Mishra & Danah Henriksen, Michigan State University, United States

3D Printing As A Tool For Teaching And Learning In STEAM Education .................. 188
Jared Vanscoder, University of North Texas, United States

Future Trends in MOOCs and SOOCs in Management Education ................................. 192
Owen Hall, Jr., Pepperdine University, United States

Building Online Learning Communities Using Web 2.0 Technologies ......................... 193
Mariam Abdelmalak, NMSU, College of Education, Curriculum & Instruction Department, United States

A Pragmatic Use for Massive Open Online Courses (MOOCs): Virtual School Teacher Professional Development ................................................................. 200
Darcey Addo, Walden University, United States

Digital Footprints: Students and Teachers Creating and Managing Networked Literacy Identities ......................................................................................................... 203
Holly Atkins & Candace Roberts, Saint Leo University, United States

Hub or Silo? Expanding the LMS with Innovative Web Tools ............................................ 209
Curby Alexander, Texas Christian University, United States

HYBRID LEARNING IN HIGHER EDUCATION ............................................................. 214
Sameer AlNajdi, Indiana State University, United States

Student Engagement in a Dual-Mode teaching Environment: A Pilot Study ................... 221
Jeanne Anderson, St. Cloud State University, United States; Susan Sutton & Teri Gergen, Roane State Community College, United States

Open Participatory Engagement Network (OPEN): An Instructional Design Meta-Framework for Creating Participatory Networked Learning Environments .............. 227
Fredrick W. Baker III, University of South Alabama, United States
Failure to Communicate? Online learning and Collaborative Work .............................. 234
Kathy Boudreau-Henry, Middle Tennessee State Univ, United States

Staying Connected: The Cycle of Innovation ................................................................ 240
Isabel Breen & Jessica Fuda Daddio, Keiser University, United States

Exploring a New Model of Academic Integrity: The PACT System .............................. 246
John Buckley, Keiser University, United States

Using Wikis for Online Curriculum Building: An Updated Perspective ....................... 250
David Byrum, Texas State University, United States

Introducing the Linked Classroom Model in a Synchromodal Learning Environment ................................................................. 256
William Cain, Sandra Sawaya & John Bell, Michigan State University, United States

Online Attrition and Retention in Community Colleges: Are Minorities at a Disadvantage? ........................................................ 257
Miriam Carrasquel-Nagy, University of Northern Colorado, United States

Student Trends with Digital Textbook Options in Preservice Education ...................... 265
Terence Cavanaugh & Nicholas Eastham, University of North Florida, College of Education and Human Services, United States

Online Lecture based Note-Taking Strategy for College Student ................................ 272
Xi Chen, Texas Tech University, United States

Educator Role Transforms from Sage to Ghost: Implementation of Discovery-Based Learning Online with Large Student Enrollment .................................................... 277
Shelley Cobbett, Dalhousie University, Canada

Pilot Project: Development of an Interactive Mechanical Engineering Drawing Instructional Aid Software .............................................................. 282
Howard Cole, University of Technology, Jamaica, Jamaica

Working with student teachers in the Bush: Supervision strategies from Alaska ...................... 283
Jonathan Bartels, University of Alaska Anchorage, United States

Social Interaction and Peer Mentorship at Universities in a Post-Course Future ...................... 286
Matt Crosslin, University of North Texas / University of Texas at Arlington, United States
Students’ perceptions of web-based and 3Dimensional museums ........................................... 290
Adriana D’ Alba, University of West Georgia, United States; Jonathan Gratch, University of North Texas, United States; Jian Zhang, Texas Woman's University, United States; Deborah Blackwell, University of North Texas, United States

Getting a MOOC Off the Ground: From Dream to Reality ......................................................... 295
Lee Digiovanni & Anissa Vega, Kennesaw State University, United States

Interactive Online Course Development ....................................................................................... 299
Donna DiMatteo-Gibson, Lycurgus Group, Inc., United States

The Software Engineering Life Cycle Approach (SELCA): Developing Distance Education Milieus .............................................................................................................................................. 302
Gulsun EBY, M. Recep Okur, Ömer Uysal & Ilker Usta, Anadolu University, Turkey

Queso: Introducing Game Design Principles into Curriculum .................................................. 307
Clay Ewing, University of Miami, United States

YouTube for Common Core Writing ............................................................................................. 308
Erik Bean, American Public University, United States; , Brigantine Media, United States

Lessons Learned from Implementing U-Pace Online Instruction with High School and College Students ........................................................................................................................................... 309
Raymond Fleming & Diane Reddy, University of Wisconsin-Milwaukee, United States; Ryan Fleming, University of Wisconsin-Madison, United States; Heidi Pfeiffer & Leah Stoiber, University of Wisconsin-Milwaukee, United States

Mathematics-for-Teachers using a MOOC .................................................................................. 310
George Gadanidis, Faculty of Education, University of Western Ontario, Canada

Faculty Experiences with Online Learning: A Mixed Methods Study ........................................ 315
Michelle Giles, Rhonda Ritter, Ellen Zimmerman & Bob Kaiser, University of North Texas, United States

Role of Motivation for Students’ Success in Studying Physics Module .................................... 324
Tatiana Gnitetskaya, Far Eastern federal university, Russian Federation; Joe Rodriguez, Stephen F. Austin State University, United States

WAC-TV -- Meeting the Writing Needs of Kaplan Students ..................................................... 330
Barbara Green, Kaplan University, United States

Learner Engagement – The Lasting Effect of Announcements in Online Courses ....................... 334
Jenelle Hodges & Betty Nelson, University of Alabama at Birmingham, United States

ICT Integration in Teaching and Teachers Training by Faculty Members in Israeli Colleges of Education, 2013
Miri Shonfeld, Kibbutzim College of Education and Mofet Institute, Israel; Olzan Goldstein, Kaye Academic College of Education and Mofet institute, Israel

Conducting Classroom Observations to Understand TPACK: Moving Beyond Self-reported Data
Shu-Ju Diana Tai & Denise Crawford, Center for Technology in Learning & Teaching, Iowa State University, United States

The impact of field experience in technology-integrated classrooms on preservice teachers’ development of TPACK
Shu-Ju Diana Tai & Denise Crawford, Center for Technology in Learning & Teaching, Iowa State University, United States

Teachers’ arguments for NOT using laptops in the 1:1 classroom
Martin Tallvid & Berner Lindstrom, University of Gothenburg, Sweden; Johan Lundin, Univerity of Gothenburg, Sweden

An Experimental, Mixed Methods Study: Blogging and Graduate Teacher Certification Candidates’ Reflection
Kathleen J Tate, American Public University, United States; William M Gillum & Greg C Mandalas, American Public University System, United States

Technology Use During Field Experiences: Preservice Teachers’ Perceptions
Debbie VanOverbeke & Paulette Stefanick, Southwest Minnesota State University, United States

The Trifecta Model: Teacher Preparation with Technology
Elizabeth Whitten & Luchara Wallace, Western Michigan University, United States
Improving Teacher Candidate Use Of Mobile Technologies Through Classroom Modeling .......................................................... 2694
Jana Willis & Vanessa Dodo Seriki, University of Houston-Clear Lake, United States

Integrating the Common Core State Standards into Classroom Instruction: A Paradigm Shift for Teacher Professional Development .................................................. 2700
Joachim Agamba, College of Education, Idaho State University, United States

Digital Learning Through Google Hangouts ................................................................. 2706
Becky Alexander, Middle Tennessee State University, United States; Holly Harwood, Woodbury Grammar, United States; Miguel Eguia, Middle Tennessee State University, United States

iPads in Action III: iPad Apps and the Common Core for Special Needs Students ................................................................. 2710
Kevin Mark Anderson, Elmwood Park Community Unit School District #401, United States; Cindy Anderson, Roosevelt University, United States

Professional Development of Teachers on Technology Integration: Teacher Preferences ........................................................................................................... 2712
Cengiz Hakan AYDIN, Anadolu University, Turkey

Savilla Banister, Rachel Reinhart & Cindy Ross, Bowling Green State University, United States

Creating WordPress Student Blogs Aligned with Common Core and Higher Ed Writing Standards ............................................................................................................... 2722
Erik Bean, American Public University, United States

How to Create WordPress Student Blogs Aligned with Common Core Writing Standards ............................................................................................................... 2724
Erik Bean, American Public University, United States

USING MOBILE TECHNOLOGY TO ENGAGE STUDENTS ............................................ 2728
Sylvia Bembry, Winston-Salem State University, United States; Carolyn Anderson, Winston-Saem State University, United States

Perceptions of Achievement and Satisfaction as Related to Interactions in Online Courses ............................................................................................................... 2731
Kristi Bordelon, Teacher Education University, United States
How Teachers use Technology to Meet English Language Arts Common Core State Standards ................................................................. 2739
Brandi Burton, Mississippi State University, United States

Relationships Between Teacher Personality Type and Technology Integration Indicators ................................................................................................. 2745
Rhonda Christensen, Institute for the Integration of Technology into Teaching & Learning/UNT, United States; Michele Williams, Jesuit College Preparatory High School, United States

Top Ten Tech Tools for Teachers .................................................................................................................................................. 2754
Jeradi Cohen & Loretta Harvey, Shawnee State University, United States

Changing Perceptions: A Living Case of One School’s Transformation to Worthwhile Teaching & Learning Utilizing Ongoing, Job-Embedded Professional Learning .................................................................................................................................. 2760
Lori Cooper & Aimee Furey, Calgary Board of Education, Canada; Judy Martin, Galileo Educational Network, Canada

Flipping the Classroom in Higher Education: A Design-Based Research Study to Develop a Flipped Classroom Framework ........................................................................................................... 2763
Helen Crompton, Judith Dunkerly-Bean & Michail Giannakos, Old Dominion University, United States

Attitudes Toward and Use of iPads in a College of Education One-to-One Program .................................................................................................................................................. 2767
Teresa DeBacker & Theresa Cullen, University of Oklahoma, United States

Concept Mapping on iPads with Baiboard HD to Promote Student Learning .................................................................................................................................................. 2776
Teresa DeBacker & Jacqueline Goldman, University of Oklahoma, United States; Omer Faruk Islim, Middle East Technical University, Turkey

Development of Future Online Faculty ................................................................................................................................................. 2781
DONNA DiMatteo-Gibson, Lycurgus Group, Inc., United States

Modeling Effective 21st Century Teaching Strategies: Teaching with the Technology, Not Teaching the Technology ................................................................................................................................................. 2784
Holly Ellis, The University of West Florida, United States

A Framework for Web 2.0 Learning Environment to Develop Online Learning and Facilitation Competences of Preservice Teachers ................................................................................................................. 2785
Ibrahim Farouck, Otaru University of Commerce, Japan
A New Best Practice: Online Instructors as Researchers ........................................ 2792
Barbara Fedock, University of Phoenix, United States

The Effect of PBL on Achievement In Relation To GPA For Pre-Service Computer Teachers ............................................................. 2798
olfat fodah, King Saud University, Saudi Arabia

Stem and the Sea ................................................................. 2803
Alok Verma, Sueanne Mckinney & Nina Brown, Old Dominion University, United States; Clair Berube, Hampton University, United States

Digital Scaffolding with Youth-at-Risk: Challenges, Achievements, and Suggestions .......................................................... 2804
Jonathan Friesem, University of Rhode Island, United States

Using iBooks to Create 21st Century Learning Materials/Lessons for Use on iPads. .................................................................................... 2807
Martonia Gaskill, PhD, University of Nebraska at Kearney, United States; Dr. Tommy Hansen, University of Nebraska Kearney, United States

Building Pre-Service Teachers’ Knowledge of TPACK: A Study Replication and Extension ........................................................................ 2809
Amanda Goodwin, Asbury University, United States

Student created training for teachers ........................................................................ 2814
Michele Vogt-Schuller, Proviso Mathematics and Science Academy, United States

Leveraging Student to Student Interactions to Increase Motivation and Engagement in Online Classrooms: An Action Research Case Study" ......................................................... 2819
Glenda Gunter, University of Central Florida, United States; Robert Kenny, Florida Gulf Coast University, United States

How teacher education institutions cope with challenges of teaching and learning in the digital age ................................................................. 2821
Joke Voogt, University of Amsterdam/ Windesheim University of Applied Sciences, Netherlands; Maurice Schols, Fontys University of Applied Sciences, Netherlands; Jeroen Bottema, Inholland University of Applied Sciences, Netherlands; Hans van Bergen & Nanda van der Stap, Utrecht University of Applied Sciences, Netherlands; Anna Tomson, Michael Nieweg, Jan-Willem Doornenbal & Bas Bakker, Amsterdam University of Applied Sciences, Netherlands; Anneke Smits, Windesheim University of Applied Sciences, Netherlands; Ann Thompson, Iowa State University, United States

Developing Math Literacies through Cultural Relevance ........................................ 2826
Lanette Waddell & Jose Onate, Vanderbilt University, United States
Technology Integration Project: Turkey’s Example .................................................... 2828
Ufuk Gavus, Duquesne University, United States

Prezi as a Lecture Tool in a Middle School Classroom .............................................. 2832
Yungwei Hao, National Taiwan Normal University, Taiwan

Students’ Attitude towards a Flipped Classroom and its Relationship with Motivation Orientations in an Undergraduate Course ......................................................... 2835
Yungwei Hao, National Taiwan Normal University, Taiwan

Gender Differences in Technology Integration ............................................................ 2841
Tina Heafner, University of North Carolina at Charlotte, United States

Integrating Affordance Analysis in Designing Online Discussion .............................. 2850
Yu-mei Wang, University of Alabama at Birmingham, United States

How to “Flip the Classroom”: The 411 ......................................................................... 2852
Terry Howard, Camden Middle School/ University of Phoenix, United States; Kelley McLauchlan, University of Phoenix, United States

Web 2.0 Tools: a Valuable Support to Teachers of Struggling Readers .................... 2853
Haihong Hu, Mary Ellen Oslick & Shoudong Feng, University of Central Arkansas, United States

IPad Integration and the Truly Inclusive Classroom ................................................... 2860
Jeanne Ingle, Eastern Connecticut State University, United States

Facilitation of Your Success When Implementing Technology in Schools K-12 ................................................................................................................................... 2866
Linda Whipkey, Southwest Facilitator Network, United States

Using Technology to Promote Computational Thinking in Middle School Classrooms .................................................................................................................. 2866
Denise Johnson, Brittney Black, Michaela McGiff & Kristyn Daney, Winston-Salem State University, United States

Competence in Solving Problems and Blended Learning Environment in Student Teaching ........................................................................................................................... 2869
Jackie HeeYoung Kim, Armstrong Atlantic State University, United States

A Systematic Review of Research on a Technology-Enhanced Curriculum .................................................................................. 2876
Mi Song Kim & Pejman Habibie, University of Western Ontario, Canada
A Cluster Analytic Approach: Investigation of Interrelationship between Mathematics Teachers’ Beliefs about Using Computers in Mathematics Education, Gender, Teaching Experience, and Computer Experience .............................................................. 2878
ONDERTOKLU, ELIZABETH JAKUBOWSKI, TAYFUN SERVI & Jiajing Huang, FLORIDA STATE UNIVERSITY, United States

Apps Here, Apps There, Apps Everywhere ... Drowning in Apps ......................... 2885
Diana Williams, Joan Henley & Joanna Grymes, Arkansas State University, United States

Teacher Online/Onsite Collaboration in the Knowledge Building International Project .............................................................. 2886
Therese Laferriere, Laval University, Canada; Alain Breuleux, McGill University, United States

Powerful Teaching and Learning with Multimedia Technologies in the Social Studies Curriculum .............................................................. 2889
Judy Lambert, The University of Toledo, United States

Quest-Based Learning: A New Approach to Preservice Teacher Technology Instruction .............................................................. 2895
Judy Lambert, The University of Toledo, United States; Jackie Ennis, Barton College, United States

Sustaining Innovation Through Online Professional Development: A Design Approach .............................................................. 2901
Jessica Levene, Volusia County Schools & Doctorate student at University of Florida, United States; Dr. Don Boulware, Volusia County Schools, United States

VoiceThread: Instructional improvement through objective feedback ....................... 2907
Timothy Lewis, Brooke Burks, Kellie Shumack & Kate Simmons, Auburn University at Montgomery, United States

An Exploratory Investigation of Pre-Service Teachers’ Problematic Internet Use in the United States .............................................................. 2911
Yuliang Liu & Deborah Burns, SOUTHERN ILLINOIS UNIVERSITY EDWARDSVILLE, United States

Wordle: A Case Study for Learning Possibility of Vocabulary Terms to Visual Learners .............................................................. 2918
Tamara Malone & Jiyoon Yoon, University of Texas Arlington, United States

Attracting Girls, Special Needs, Minority and Underserved K-12 Students to Computing Majors and Careers .............................................................. 2925
Daniela Marghidu, Auburn University, United States
Digital teaching as a key factor in the learning process of reading and writing of first grade children in Asuncion, Paraguay ................................................................. 2928
Jali Martin, Universidad Autónoma de Asunción, Paraguay

Universal Design for Learning in the 21st Century Classroom ....................... 2929
Jeff McCormick & Ron Rogers, Universal Design for Learning Center at OCALI, United States

Flipping Your Meeting for Productivity and Results ........................................... 2930
Kelli Murphy-Godfrey, Carlisle Area School District; Carlisle, PA - Duquesne University, United States

Using Class Dojo with an Interactive Whiteboard and iPad Projection to Promote Positive Behavioral Interventions and Supports at the Classroom Level .......... 2931
Chris O’Brien, University of North Carolina at Charlotte, United States; Nancy Aguinaga, Southeast Missouri State University, United States

Virtual Adventures, Eco-Tales and Mysteries: Online Learning Options for STEM Educators. ................................................................. 2934
Patrick O'Leary, University of Minnesota, United States

Vanthanh Phan, Jongpil Cheon & Mohja Jerbi, Texas Tech University, United States

The Evolution of the Frameworks for Success in Science Resource Website by and for Elementary Teachers ................................................................. 2940
Pascale Pinner, Hilo Intermediate School, United States; Jan Ray, University of Hawaii at Hilo, United States

Ensuring Quality Feedback on Critical Thinking Projects through Online and Networked Platforms ................................................................. 2945
Mark Reid, Texas A&M University-Commerce, United States

STEM Academy: Middle school students learn about graphing using technology tools ................................................................................................................. 2947
Angelia Reid-Griffin & Kelli Slaten, UNC Wilmington, United States

Teaching At-risk Students with Technology ....................................................... 2952
David Rutledge & Binod Gurung, New Mexico State University, United States

Impact of Online Delivered Professional Development on Educators in Title I Schools ................................................................................................................. 2959
Steven Shaha, University of Utah, United States; Heather Ellsworth, Brigham Young University, United States
From A to Z: More on the Best INTERNET Sites for Teaching and Learning ................................................................. 2965
Dr. Sandi Smith, Tennessee Tech University, United States

Designing online PD for 100,000 teachers: Resolving the tension between maximizing reach and optimizing interaction. ........................................................................................................... 2971
Geetanjali Soni & Morrow Donna, Department of Public Instruction, United States

In-service Teachers’ Perceptions Toward iPad Integration ................................................................. 2974
Michael Spaulding, University of Tennessee at Martin, United States

Authoring Online Simulations: Will it Make Me a Better Principal? ............................................. 2983
Nancy Ann Staub, The University of Toledo, United States; Marlena Bravender, Saginaw Valley State University, United States

Igniting Tomorrow’s Innovation in K-12: Rocket Project ................................................................. 2984
Ibrahim Halil Yeter & Faith Koca, Texas Tech University, United States

Educational Crossroads: Preparing Teachers for 21st Century Learners .................................. 2984
Sue Stoddart, Marian University, United States

Pitfalls of Educational Technology in our Wired Youth ................................................................. 2991
Stacey VanderHeiden Guney, University of North Texas, United States

Math Snacks: Filling conceptual gaps in mathematics with innovative media ................................................................. 2995
Karin Miller Wiburg, Institute for Excellence in Math and Science Education (IEMSE) at New Mexico State University, United States

Perceptions of Preservice Teacher Candidates: Exploring the Reality of Confidence and Competence ............................................................................................................. 2996
Jana Willis & Michelle Giles, University of Houston-Clear Lake, United States

Community Project: Integrating Math and Science by Using Technology .................................. 3002
Jiyoon Yoon & Joohi Lee, University of Texas Arlington, United States

Literature Review on the Construction of Effective ICT Uses in School .................................. 3011
Rana Zein, Higher Colleges of Technology, United Arab Emirates

An Evaluation of 3D Skills of Students in Rural Haiti ................................................................. 3016
Ellen Zimmerman, University of North Texas, United States
Using Mobile Learning to Support Students’ Understanding in Geometry: A Design-Based Research Curriculum Study .......................................................... 3024
Helen Crompton, Old Dominion University, United States

Combining Teacher Professional Development on Computational Thinking with Writing and Problem Solving ................................................................. 3045
Li Xu & Flory Simon, University of Arizona South, United States
