TABLE OF CONTENTS

Graffiti in the 21st Century Classroom: Promoting learning and empowerment for students with traditional and digital graffiti ................................................................. 1
Jennifer Laffier & Michael Bowman, Ontario Tech University, Canada

The impact of Distance Learning for Deaf and Hard of Hearing students during the COVID-19 pandemic in Thailand ................................................................................................................................. 7
Sudarat Makeshine, King Mongkut’s Institute of Technology Ladkrabang (KMITL), Thailand; Chantana Viriyavejak, King Mongkut’s Institute of Technology Ladkrabang, Thailand; Thanongsak Sovajassatakul, SOVAJASSATAKUL, Thailand

Artificial Intelligence and Cloud-based Technologies to Empower Learning “Active Experiments via NetLogo” ................................................................................................................................. 15
Ferial Khaddage, Deakin University,, Australia; Christoph Lattemann, Jacobs University, Germany

Interdisciplinary team science in the remote workplace: A scoping review ............... 22
Janetta Boone & Anila Das, University of North Texas, United States

Design and Evaluation of a Wiki for Cross-Classroom Collaborative Project-Based Learning ......................................................................................................................................... 27
Gail Rolle-Greenidge & Paul A Walcott, The University of the West Indies, Cave Hill Campus, Barbados

A Cross-Classroom Collaborative Project-Based Learning Management System ................................................................................................. 33
Paul A Walcott & Gail Rolle-Greenidge, The University of the West Indies, Cave Hill Campus, Barbados

Educational Project Management and Resource Provisioning System – Project-Based Learning on a Scale ................................................................................................................................. 39
Vangel Ajanovski, Faculty of Computer Science and Engineering, Ss Cyril and Methodius University in Skopje, Macedonia

Student Engagement and Attentiveness in Online Learning Systems ...................... 45
Zahra Derakhshandeh, California State University, East Bay, United States; Babak Esmaeili, Arizona State University, United States; Bhumi Patel, California State University, East Bay, United States

Attitudes and Behavioural Intention of Academic Staff regarding Learning Management Systems at selected Nigerian Universities ................................................................. 59
John Isioma Osode & Geoffrey Lautenbach, University of Johannesburg, South Africa

Gamification in item-based educational systems – a bibliometric analysis .................. 69
Maciej Pankiewicz & Ulan Abdiomar, Warsaw University of Life Sciences, Poland
Exploring students’ attitudes and perceptions towards the efficacy of learning in King Saud University, Saudi Arabia during COVID-19 pandemic ................................. 74
Hayaa Alhazani, University of Nevada, Reno, United States

Bridging the Gap Between Traditional Pedagogies and Digital Technologies “Challenges and Misalignments” ................................................................. 80
Ferial Khaddage, Deakin University, Australia; Cathie Norris, University of North Texas, United States; Elliot Soloway, University of Michigan, United States; Ann-Louise Davidson, Concordia University, Canada

Current Challenges in the Educational Usage of 3D Printing in Primary and Secondary Schools ................................................................................................. 88
Kamil Malinka & Vladimír Schindler, Masaryk university, Czech Republic

Teachers’ integration of instructional technology into curriculum delivery in disadvantaged communities: a case of Cape Flats schools in South Africa .......... 97
Xolile Mdingi & Agnes Chigona, Cape Peninsula University of Technology, South Africa

Change of IT equipment and communication applications used by first-semester students from 2011 to 2020 and possible effects of the COVID-19 pandemic: Analysis of a long-term survey. ................................................................. 107
Walther Nagler, Bettina Mair, Martin Ebner, Sarah Edelsbrunner & Sandra Schön, Graz University of Technology (TU Graz), Austria

From Verbal to Visual: Can Instagram be used to Assess Learning in Higher Education? ........................................................................................................... 115
Jorge Reyna, The Australian and New Zealand College of Ophthalmologist (RANZCO), Australia

From Verbal to Visual: Instagram (IG) as an Assessment Tool in Higher Education ............................................................................................................... 125
Jorge Reyna, The Australian and New Zealand College of Ophthalmologist (RANZCO), Australia

Worked Examples: An Overview ......................................................................................................................... 128
Julie Smith, University of North Texas, United States

Keeping in School Shape (KiSS): The design and evolution of a program that encourages students to revisit math skills over school breaks ........................................ 135
Carla van de Sande & Jana Vandenberg, Arizona State University, United States

The Guidelines of Teaching and Learning: Integration with Facebook for Education and Modernization ........................................................................................................... 149
Chantana Viriyavejakul, King Mongkut’s Institute of Technology Ladkrabang, Thailand
