Invitation to Join

The Association for the Advancement of Computing in Education (AACE) is an international, non-profit educational organization. The Association’s purpose is to advance the knowledge, theory, and quality of teaching and learning at all levels with information technology.

This purpose is accomplished through the encouragement of scholarly inquiry related to technology in education and the dissemination of research results and their applications through AACE sponsored publications, conferences, and other opportunities for professional growth.

AACE members have the opportunity to participate in topical and regional divisions/societies/chapters, high quality peer-reviewed publications, and conferences.

Join with fellow professionals from around the world to share knowledge and ideas on research, development, and applications in information technology and education. AACE’s membership includes researchers, developers, and practitioners in schools, colleges, and universities; administrators, policy decision-makers, professional trainers, adult educators, and other specialists in education, industry, and government with an interest in advancing knowledge and learning with information technology in education.

Membership Benefit Highlights

• Gain professional recognition by participating in AACE sponsored international conferences
• Enhance your knowledge and professional skills through interaction with colleagues from around the world
• Learn from colleagues’ research and studies by receiving AACE’s well-respected journals and books
• Receive a subscription to the Professional Member periodical AACE Journal [electronic]
• Receive discounts on multiple journal subscriptions, conference registration fees, and EdITLib Subscriptions.

The exchange of ideas and experiences is essential to the advancement of the field and the professional growth of AACE members. AACE sponsors conferences each year where members learn about research, developments, and applications in their fields, have an opportunity to participate in papers, panels, poster demonstrations and workshops, and meet invited speakers.

February 12-14, 2013
An Online Conference

This conference, held annually, offers opportunities to share ideas and expertise on all topics related to the use of information technology in teacher education and instruction about information technology for all disciplines in preservice, inservice and graduate teacher education.

Global Learn 2012
Global Conference on Learning and Technology
November 6-8, 2012
An Online Conference

This annual virtual conference serves to further the advancement and innovation in learning and technology. As the educational world becomes increasingly global, new ways to explore, learn, and share knowledge are needed. Global Learn is a means to connect and engage creative educators, researchers, consultants, training managers, policy makers, curriculum developers, entrepreneurs, and others in the topics and fields in which they are passionate. Global Learn offers an opportunity to meet and discuss their ideas, findings, and next steps.
