Using Student Experts as Technology Assistants in Schools: 
An Untapped Resource

Robert J. Clinkert, Ph.D., Assistant Superintendent for Instruction 
Woodridge School District 68, 7925 Janes Avenue, Woodridge, IL 60517, U.S. 
Clinkertr@wdgdst68.dupage.k12.il.us

Abstract: One of the best resources for helping teachers implement their technology curriculum is a student tech assistant. In Woodridge School District a select cadre of students from each school is given formal training in advanced topics such as creating web pages, hypermedia, and network trouble shooting in order to assist the classroom teachers.
