How to implement WBT into higher education

Anna Grabowska, Technical Univ. of Gdansk, Poland

Two examples of WBT courses for university students are presented. The first one is TeleCAD (Teleworkers Training for CAD Systems’ Users) and is oriented to teaching basic drawing skills in AutoCAD program and current technology and methodology of teleworking. The second one is MDEC (Multimedia Distance English Courses for Polish Users in Legal, Banking and Finance, Science and Technology, and Safety Training Sectors with Elements of European Union Regulations and Standards). Both projects are based on advanced ICT technology (multimedia, WWW). TeleCAD and MDEC projects were developed under Leonardo da Vinci programme (1998-2001). Pilot courses for international groups were delivered. Monitoring systems and evaluation procedures online were developed. DE project management support system and online dissemination activities were implemented. Details of Leonardo da Vinci projects are presented at the URL: http://www.dec.pg.gda.pl/dec/index.phtml?id=projekty_leo_en
