Adobe Connect is a powerful web conferencing and e-learning system which allows users to conduct effective online meetings that support video, audio, screen sharing, application sharing, chat, notes and whiteboard.

This session will share innovative and effective ways to utilize Adobe Connect to facilitate teaching and learning. In addition to traditional ways of using the system to host online meetings and collaborate with colleagues at a distance, faculty have been using the system to conduct online extra-instruction sessions and hold virtual office hours. Faculty and staff from the Writing Center have been using the system to conduct online one-on-one or group tutoring sessions. In addition, this system is also used to conduct training Webinars and hold online troubleshooting sessions.
